PROFESSIONAL EXPERIENCE

Food Service Specialist

July 2024 – August 2026

Circle K – Central Canada, Toronto, ON

- Oversee food service operations across 75 retail locations, supporting consistent execution of food service programs, merchandising standards, inventory practices, and operational objectives.
- Analyze store and regional performance data to identify sales opportunities, operational gaps, waste reduction opportunities, and areas for business improvement.
- Contributed to approximately 40% sales growth and 15–20% waste reduction through improved store execution, performance monitoring, operational recommendations, and continuous improvement initiatives.
- Conduct regular store visits to evaluate food service execution, merchandising, inventory levels, product availability, and overall store performance.
- Collaborate with Category Managers, regional leaders, District Managers, Store Managers, vendors, and internal teams to support category growth, sales initiatives, product rollouts, and promotional execution.
- Provide operational guidance and coaching to store and area managers to improve food service performance, product execution, inventory management, and customer experience.
- Identify underperforming locations, analyze operational challenges, recommend corrective actions, and support store teams in implementing improvement plans.
- Support new store openings, store remodels, product launches, and food service initiatives by coordinating operational requirements, training activities, store readiness, and execution.
- Develop and deliver training sessions for store teams covering food service operations, product standards, merchandising, inventory practices, and operational best practices.
- Develop performance reports, dashboards, and analytical summaries using Excel, Power BI, Smartsheet, Microsoft Forms, and Google Forms to support data-driven decision-making.
- Monitor inventory and product availability trends and collaborate with store teams to improve stock levels, reduce waste, and support sales opportunities.
- Prepare recommendations based on store performance trends, operational data, customer observations, and field feedback to support regional business objectives.
- Maintain strong cross-functional relationships with category, operations, field leadership, vendors, and store teams to support successful execution of retail initiatives.
- Participate in special projects focused on food service growth, operational efficiency, process improvement, merchandising execution, and business performance.

Retail Sales Supervisor
Circle K, Windsor, ON

June 2022 – June 2024

- Supervised daily store operations, ensuring efficient customer service, effective staff deployment, and smooth execution of business activities.
- Assigned duties to store employees, prepared work schedules, and ensured appropriate staffing levels across shifts.
- Trained and coached employees on customer service, cash handling, store procedures, sales practices, and company policies.
- Assisted the Store Manager with employee recruitment, onboarding, training, and performance management.
- Monitored store sales, inventory levels, product availability, merchandising standards, and overall operational performance.
- Supported receiving, inventory control, stock replenishment, and maintenance of appropriate product levels.
- Resolved customer complaints, employee concerns, and operational issues while maintaining a positive customer experience.
- Provided coaching and performance feedback to employees to improve productivity, customer satisfaction, and operational efficiency.
