SUMMARY

Results-oriented Quality Assurance Food Service Specialist and Lean Six Sigma Green Belt certified professional with strong expertise in Industrial Engineering, process optimization, and data-driven decision making. Proven ability to improve operational efficiency, reduce costs, and enhance customer experience through Lean methodologies, quality control techniques, and cross-functional collaboration.

CORE COMPETENCIES

- Lean Methodologies and Continuous Improvement
- Data Analysis (Power BI, Excel)
- Process Optimization and Standardization
- Cross-Functional Collaboration
- Six Sigma Tools and Process Improvement
- Root Cause Analysis and Corrective Actions
- Food Safety and HACCP Compliance
- Training Development and Delivery

PROFESSIONAL EXPERIENCE

Quality Assurance Food Service Specialist

July 2024 – Present

Circle K – Central Canada, Toronto, ON

- Managed end-to-end food service operations across 100+ stores, driving execution excellence and consistent service standards across a large geography.
- Collaborated cross-functionally with Category managers, Food Service manager, and operations managers to support product launches, optimize assortment, and enhance customer engagement.
- Delivered 40% sales growth across key categories by improving merchandising strategies, planogram execution, and in-store visibility.
- Reduced bad merchandise and food wastage by 15–20% through process improvements, better inventory control, and compliance enforcement.
- Played a key role in expanding operations by supporting new store launches, ensuring smooth onboarding, setup, and operational readiness.
- Partnered with District Managers to ensure strong on-ground execution, resolving operational issues and maintaining high service levels.
- Built and maintained performance dashboards (Excel, Power BI, Smartsheet) to track operations and enable faster decision-making.
- Ensured system and process hygiene by maintaining accurate audit records, training logs, and operational data.
- Standardized training programs and SOPs, improving consistency and team productivity across multiple locations.
- Proactively identified operational risks and implemented preventive and corrective actions to ensure smooth operations.

Food Service Supervisor

June 2022 – June 2024

Circle K, Windsor, ON

- Managed daily store operations with focus on quality assurance and food safety compliance.
- Trained staff on food safety standards and SOPs, improving compliance and consistency.
- Maintained inventory controls, safety logs, and regulatory documentation.
- Implemented strategies to improve customer engagement and increase sales.
- Coordinated team schedules to maximize productivity and efficiency.

Student Intern – Production Process Engineer

June 2019 – July 2019

Ahlada Pvt. Ltd., Hyderabad, India

- Analyzed manufacturing processes to improve efficiency and reduce waste.
- Identified bottlenecks and implemented process improvements.

EDUCATION

University of Windsor, Canada

Jan 2022 – Jun 2023

Masters in Industrial Engineering

B. V. Raju Institute of Technology, India

Aug 2016 – May 2020

Bachelor of Technology in Mechanical Engineering

CERTIFICATIONS

- Lean Six Sigma Green Belt – Binghamton University, USA
- Project Management Essentials – Management and Strategy Institute
- Power BI Essential Training – LinkedIn Learning

PROJECTS

Smart Parking System (Project Lead)

Developed a sensor-based parking system using Arduino, MATLAB, and Simulink.

Three Roller Bending Machine Design

Designed and analyzed a sheet metal bending machine using Siemens NX and ANSYS.

Formula 9 Vehicle (Department Head)

Led design and fabrication of a race car focusing on aerodynamics and weight optimization.

E-Baja Electric Vehicle

Worked on braking system design and manufacturing for an off-road EV.
